- Quick to install and easy to program using the keypad

**AX50 Kit Contents**

- 1 AX50 Controller
- 1 Proximity & PIN Reader
- 10 Wireless Smart Cards
- 1 Program Card
- 1 Fixing Kit
- 1 Manual

**Description**

The AX50 access control kit is a compact, standalone single door controller supplied with a proximity reader with keypad, controller and cards.

Presenting the wireless smart card within 4" (10cm) of the slimline reader or entering the individual PINcode automatically verifies the unique code and opens the door if access is allowed for the individual.

The mullion-style reader is weatherproof, easy to install and fixed with the security screws supplied allowing installation even in the toughest environments.

The program card included prevents unauthorized system changes—cards can easily be individually added and deleted using the built-in keypad.

**Specifications****Controller**
